

Suppliers Performance

A-to-Be® considers that it's essential for its suppliers to be aware of the key requirements listed below, to be implemented in the control and monitoring of their performance

- Price — price history; price deviation on invoices
- Supply - meeting deadlines; compliance with quantities; compliance with shipping rules; compliance with agreed dates;
- Service in General — service in general; environmental practices; after sales service; technical assistance;
- Service Provision — service quality; compliance with dates;
- Information security — incidents.
